Metal shed designed specially for bikes

Asgard Motorcycle Shed

www.asgardsss.co.uk

Spending £1300 on a metal garage is a serious decision, especially when the same amount of money could buy one hell of a wooden shed. But after a few months using this Asgard garage I've been converted.

If security is an issue then this could be the answer. Secure locks give the doors a sturdy feel, and steel sides and

roof would defeat all but the most serious of tools. The interior has a plug socket and vents so wet bikes can dry and there's a shelf for your helmet.

It's designed for one bike but you could squeeze two bikes in. It only takes up minimal room, but needs a concrete or slab base.
