

SHED GUTTERING KIT

COMPATIBILITY

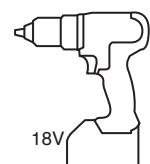

Suitable for a Centurion, Gladiator, Sentry, Flexistore, Saracen shed ranges. Designed for the FloPlast Mini Flow Guttering System.

TOOLS REQUIRED

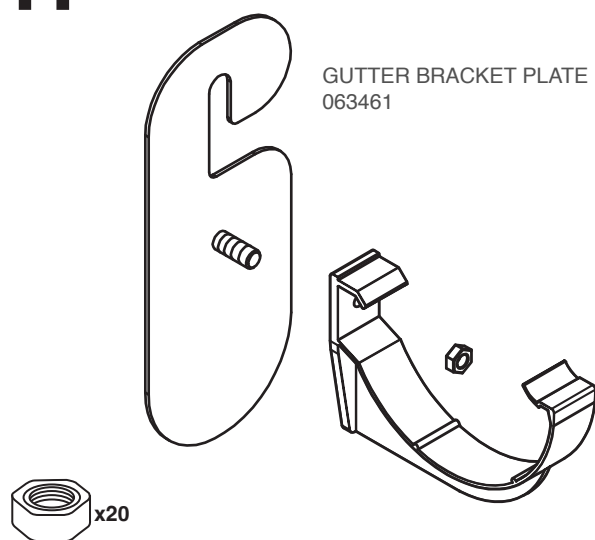

Power driver POSI-DRIV PZ2 screwdriver.

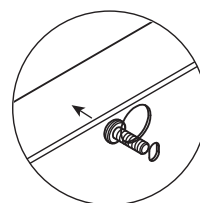

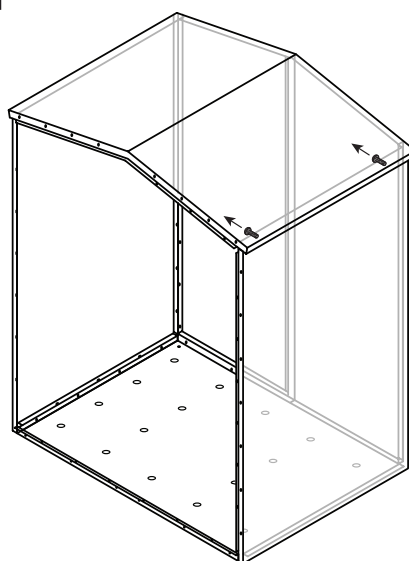

GUTTER BRACKET PLATE
063461 x16

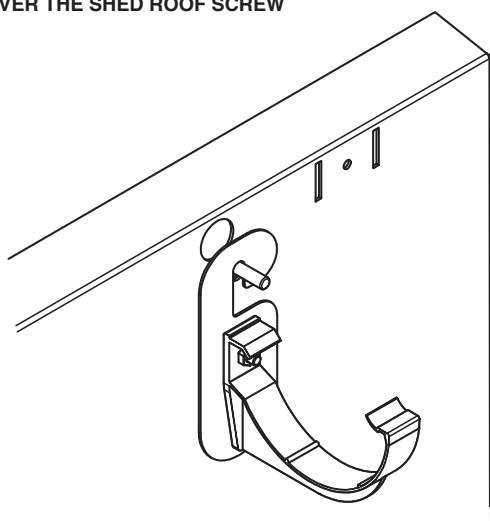

1! ALIGN GUTTER BRACKET AND USE NUT TO SECURE

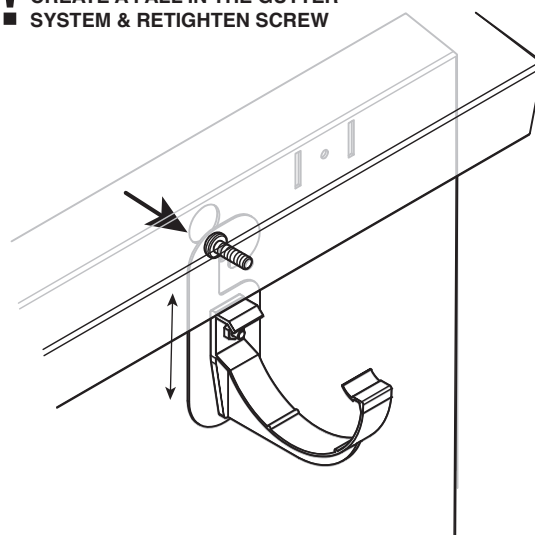

2! PARTIALLY REMOVE EXISTING SHED ROOF SCREW

3! PLACE GUTTER BRACKET OVER THE SHED ROOF SCREW

4! ADJUST THE BRACKET TO CREATE A FALL IN THE GUTTER SYSTEM & RETIGHTEN SCREW

Please note: The Asgard guttering system is a direct feed to your water butt. Once full, this may overflow or backfill into your guttering and MAY cause leakage issues into your shed. We recommend you fit an overflow pipe to allow the water to drain away without impacting the shed. Please ensure your shed guttering is regularly cleaned to ensure the water quickly flows away and does not interfere with the ventilation system.
