about asgard

Asgard® Secure Steel Storage is a division of Flexiform Business Furniture Limited, a leading supplier of steel storage systems for over 40 years. Asgard® can draw on a wealth of metal fabrication experience with a long history of engineering and manufacturing excellence.

As a business Asgard® are ISO 14001 (environmentally approved) and 9001 (quality assured) accredited as well as UKAS accredited and 18001 registered. With an unrivaled reputation for quality and innovation you can be sure of our long term commitment to supplying quality products. Our extensive range of metal storage has been reviewed and tested by leading independent industry publications – many of our storage units are Police approved, Insurance approved and UK Locksmith approved. Our gas bottle storage is the only Calor gas approved system available. Asgard's® reputation is built on quality UK manufacturing – all of our products are designed and manufactured in Yorkshire, and are made from heavy, galvanised (weatherproof) steel, featuring integral metal floors*, vented roofs and high quality locking systems.

customer services

Help and advice is always at hand. Asgard® have a team of Yorkshire-based customer service operators available with help and advice for all of our products and services. We also operate an online Live Chat service for instant online advice.

We offer a free nationwide delivery service**, using our own installation teams for your convenience. All of our products are delivered by our own employees, on our own vehicles across the UK. Each of our sheds have been designed to be self-assembled with a minimum amount of tools, however a convenient installation service is available through our own fully trained installation teams. Installation can be carried out as part of the delivery service.

asgard features

WHY METAL AND NOT WOOD?

One of the most common questions Asgard® get asked is “why should I buy metal when it will just rust? Why should I not buy a cheaper, wooden shed?” All Asgard® sheds are made from thick, galvanised (weatherproof) steel and coated in a polyester powder coat paint. This combination of processes makes the steel not only weatherproof but exceptionally tough and durable. Asgard® use only zinc coated (rust resistant) screws for assembling our sheds, for a better quality fixing and long life.

WEIGHT

Good quality metal sheds are heavy. Asgard® sheds are made from thick steel and include an integral metal base**, so an Asgard® shed is **very** heavy! With weight comes quality and security, our sheds can weigh over 60 stone** so you can be sure of strength and security. You can choose to fix your unit to the floor using our (included) ground fixing kits, giving you the maximum security for your tools and equipment. On average our units are 5 times heavier than the equivalent sized product from other companies.

SECURITY

Our metal shed has a metal roof and metal doors. A wooden shed is weak in comparison and can be simply “kicked” in. An Asgard® unit has integral stiffeners, internal shoot bolts**, double-folded joints, hidden fixings, integral all-metal floors, pick-resistant locks and ground anchor points. Add to this our internal roof clips** and you really have the maximum security possible. Many Asgard® units have been approved by the UK Locksmiths Association or are LPCB rated to level 1 and Police approved (Secured by Design).

MAINTENANCE

Other than a periodic wipe down and lightly oiling the hinges, Asgard® units are virtually maintenance free. Unlike wooden sheds, no annual felting of the roof, repainting, rotten panels, leaks or doors blown off in the wind.

WARRANTY

All Asgard® storage are covered by a 10 year anti-perforation warranty*, giving you the confidence that your Asgard® unit will provide you with many years of secure storage. Please note handles are not covered in the warranty as they are designed to shear off in an attempted break in.

KEY FEATURES

- 01. Galvanised Steel** - made from tough, galvanised steel making all of our sheds secure and weatherproof.
- 02. Low Maintenance** - Asgard® all metal sheds require very little maintenance, giving years of trouble free storage.
- 03. 10 Year Warranty*** - supplied as standard.
- 04. No Exposed Screws** - no exposed external fixings or sharp edges making Asgard® sheds both secure and safe.
- 05. Easy Assembly** - simple step-by-step instructions for easy home assembly (an installation service is also available).
- 06. Pick-and-Drill Resistant Locks**** - fitted to most Asgard® storage units to provide the best possible security.
- 07. Unique Shed Ventilation** - a unique shed ventilation system helps maintain air flow inside even when the unit is locked, so minimises the build up of condensation inside the unit.
- 08. Accessories** - pre-drilled for a range of storage accessory packs including shelving, hooks, wooden subfloors and more.
- 09. Integral Metal Floor** - adds strength and stability to the units providing even more security.
- 10. Approved Storage** - Asgard® storage is UK Locksmith approved, Insurance approved, Police approved, and industry approved!*
- 11. Made in the UK-** designed and made right here in the UK.

*Excludes hinges (2 year warranty) and locks (12 months)

APPROVED STORAGE

Centurion Playground Storage School Pack 1

Our Centurion units are a secure storage solution for sport, play and gardening equipment and are already trusted by thousands of schools nationwide. These units are built from tough, heavy-duty galvanised (weatherproof) steel - the ultimate in playground protection. The superb 5-point locking system (featuring a drill-and-pick resistant lock) has a second unique handle inside for safety, should a child or anyone else become locked inside. The Centurion shed features an integral metal floor, reinforced double doors, panels and hinges which gives it its LPCB, UK Locksmith and Secured by Design (Police) approval, all backed by our 10-year warranty*

These weatherproof sheds feature hidden ventilation holes in the roof eaves, allowing air to flow inside the unit – reducing internal condensation even when fully locked. The School Pack 1 includes a pack of 10 hooks, 2 heavy-duty shelves and a tool for additional storage space, plus an easy access ramp and wooden subfloor. As with all our school packs, installation and delivery are included.

A young girl with blonde hair, wearing a white shirt and a dark grey jumper dress, stands in the doorway of a green metal storage shed. She is smiling and holding a hula hoop. The shed's interior is filled with various toys and sports equipment. On the left, a large red bucket is filled with colorful balls. A green bag hangs from a hook. In the center, a hula hoop is hanging. To the right, a yellow toy car is visible. The shed is situated on a grassy lawn, and a wooden fence is in the background. The scene is brightly lit, suggesting a sunny day.

Centurion Plus 2 Playground Storage

School Pack 9

The Centurion Plus 2 is extra-large, all-metal storage shed for sports, play or gardening club equipment. Built from thick, heavy (weatherproof) steel, the Centurion P2 has reinforced panels, doors and hinges with an integral metal floor. Fitted with a tough 5-point locking mechanism including internal deadbolts and pick-and-drill resistant locks, the Centurion is extra tough and secure. All these added security features give the Centurion a Secured by Design (Police), UK Locksmith and LPCB level 1 certification.

The Centurion range features double full-width doors to give you maximum access to the shed. With no exposed

screws and an additional handle inside should a child or anyone else become locked inside the unit, the Centurion unit is child safe. Included in our exclusive school pack is everything you need to get started including 10 extra strong hooks, 2 shelves, an easy-access ramp, delivery and installation.

Addition
School Pack 5

Addition Playground Storage School Pack 5

The Addition storage unit is sleek and compact, yet surprisingly spacious inside - ideal for a small playground to store outdoor toys. This weatherproof steel unit features double door access, a full metal floor, a unique ventilation system, and an integral rain guard to keep your equipment safe, dry and fresh. To keep all of your stored items secure, this outdoor school storage unit is fitted with a 3-point locking system featuring pick-and-drill resistant lock. The Addition

unit also features an internal second handle and no exposed screws or fixing, making it safe for children.

The Addition shed is available in 3 Asgard colours: ivory, green and brown to suit all tastes, and the doors can be on the right or left-hand side, making it adaptable for the playground. With School Pack 5 you will also receive a heavy-duty storage shelf, a pack of 10 tough heavy-duty hooks, delivery, and installation by our top Asgard team.

Trojan Plus
School Pack 6

Trojan Plus Playground Storage School Pack 6

With the Asgard school storage pack 6, you will get our extra tall Trojan Plus metal shed, ideal for storing large items of sports equipment or garden tools for your school sports or gardening club. This weatherproof, all steel unit is packed with security features featuring an integral full metal floor, a heavy-duty 5-point (drill-&-pick resistant) deadbolt locking system, and an inside out (no exposed fixtures) construction, all designed to help to keep thieves out.

Our heavy-duty locking system features a unique 2nd handle inside for safety – should a child or anyone else

become locked inside the unit, exiting is simple. Our weatherproof sheds feature hidden ventilation holes in the roof eaves, allowing air to flow inside the unit – reducing internal condensation even when fully locked, and keeping your school equipment not just safe, but also dry.

The Trojan Plus Playground Storage School Pack 6 includes a pack of 10 hooks and 6 heavy-duty shelves for additional storage space, and as with all our school packs, installation and delivery is included.

Vanguard
School Pack 8

Vangard Playground Storage

School Pack 8

The school storage pack 8 is based on our ultra-compact Vangard storage unit. This may be one of our smaller metal storage units, but inside you'll be surprised at the amount of school equipment that you can store, especially when combined with 10 heavy-duty storage hooks (included). For easy access, the Vangard has large double door access.

The Vangard is manufactured in the UK from galvanised (weatherproof) steel and features a unique ventilation system to keep your items dry and fresh, even when locked. To keep your items safe, this small playground shed has a fully integrated metal floor and a 2-point locking system with hasp padlock point for your own padlock. As with all Asgard school packs, the Vangard is delivered to your school and installed by our top teams.

Secure Store
School Pack 11

Secure Store Playground Storage

School Pack 11

Not all nurseries and schools have the space for a large shed but still need a safe and secure way to store play equipment, enter the Secure Store. At 1500mm wide x 950mm deep, the Secure Store allows you to have the secure storage you need, but in a much smaller package.

To keep all your items safe, the Secure Store is built from thick galvanised (weatherproof) steel with an integral metal base, and 3-point locking system (featuring a pick-and-drill resistant lock). It's large double door access and 180-degree

door opening gives full access to your equipment, and with the additional 10 heavy-duty hooks (included) you will be amazed at how much play equipment you will be able to store inside.

The Secure Store also features a unique ventilation system that allows air to circulate inside the unit even while locked, keeping your equipment safe and dry. As with all Asgard school packs, the Secure Store School Pack 11 includes delivery and installation from our top team.
