## about asgard

Asgard Secure Steel Storage is a division of Flexiform Business Furniture Limited, a leading supplier of steel storage systems for over 50 years. Asgard can draw on a wealth of metal fabrication experience with a long history of engineering and manufacturing excellence.

As a business Asgard are ISO 14001 (environmentally approved) and 9001 (quality assured) accredited as well as UKAS accredited and 45001 registered. With an unrivaled reputation for quality and innovation you can be sure of our long term commitment to supplying quality products. Our extensive range of metal storage has been reviewed and tested by leading independent industry publications – many of our storage units are Police approved, Insurance approved and UK Locksmith approved. Our gas bottle storage is the only Calor gas approved system available. Asgard's reputation is built on quality UK manufacturing – all of our products are designed and manufactured in Yorkshire, and are made from heavy, galvanised (weatherproof) steel, featuring integral metal floors\*, vented roofs and high quality locking systems.

All information in this brochure is accurate at time of writing. Asgard reserve the right to amend product details without notification as part of our ongoing continuous improvement program.

\* Depending upon model

\*\* Exclusions apply, remote areas may incur a charge

## customer services

Help and advice is always at hand. Asgard have a team of Yorkshire-based customer service operators available with help and advice for all of our products and services. We also operate an online Live Chat service for instant online advice.

We offer a free nationwide delivery service\*\*, using our own installation teams for your convenience. All of our products are delivered by our own employees, on our own vehicles across the UK. Each of our sheds have been designed to be self-assembled with a minimum amount of tools, however a convenient installation service is available through our own fully trained installation teams. Installation can be carried out as part of the delivery service.

# asgard features

## WHY METAL AND NOT WOOD?

One of the most common questions Asgard get asked is “why should I buy metal when it will just rust? Why should I not buy a cheaper, wooden shed?” All Asgard sheds are made from thick, galvanised (weatherproof) steel and coated in a polyester powder coat paint. This combination of processes makes the steel not only weatherproof but exceptionally tough and durable. Asgard use only zinc coated (rust resistant) screws for assembling our sheds, for a better quality fixing and long life.

## WEIGHT

Good quality metal sheds are heavy. Asgard sheds are made from thick steel and include an integral metal base\*\*, so an Asgard shed is **very** heavy! With weight comes quality and security, our sheds can weigh over 60 stone\*\* so you can be sure of strength and security. You can choose to fix your unit to the floor using our (included) ground fixing kits, giving you the maximum security for your tools and equipment. On average our units are 5 times heavier than the equivalent sized product from other companies.

## SECURITY

Our metal shed has a metal roof and metal doors. A wooden shed is weak in comparison and can be simply “kicked” in. An Asgard unit has integral stiffeners, internal shoot bolts\*\*, double-folded joints, hidden fixings, integral all-metal floors, pick-resistant locks and ground anchor points. Add to this our internal roof clips\*\* and you really have the maximum security possible. Many Asgard units have been approved by the UK Locksmiths Association or are LPCB rated to level 1 and Police approved (Secured by Design).

## MAINTENANCE

Other than a periodic wipe down and lightly oiling the hinges, Asgard units are virtually maintenance free. Unlike wooden sheds, no annual felting of the roof, repainting, rotten panels, leaks or doors blown off in the wind.

## WARRANTY

All Asgard storage are covered by a 10 year anti-perforation warranty\*, giving you the confidence that your Asgard unit will provide you with many years of secure storage. Please note handles are not covered in the warranty as they are designed to shear off in an attempted break in.

## KEY FEATURES

- 01. Galvanised Steel** - made from tough, galvanised steel making all of our sheds secure and weatherproof.
- 02. Low Maintenance** - Asgard all metal sheds require very little maintenance, giving years of trouble free storage.
- 03. 10 Year Warranty\*** - supplied as standard.
- 04. No Exposed Screws** - no exposed external fixings or sharp edges making Asgard sheds both secure and safe.
- 05. Easy Assembly** - simple step-by-step instructions for easy home assembly (an installation service is also available).
- 06. Pick-and-Drill Resistant Locks\*\*** - fitted to most Asgard storage units to provide the best possible security.
- 07. Unique Shed Ventilation** - a unique shed ventilation system helps maintain air flow inside even when the unit is locked, so minimises the build up of condensation inside the unit.
- 08. Accessories** - pre-drilled for a range of storage accessory packs including shelving, hooks, wooden subfloors and more.
- 09. Integral Metal Floor** - adds strength and stability to the units providing even more security.
- 10. Approved Storage** - Asgard storage is UK Locksmith approved, Insurance approved, Police approved, and industry approved!\*
- 11. Made in the UK** - designed and made right here in the UK.

# motorcycle garage

The Police Approved (Secured by Design) Asgard Motorcycle Garage range is an excellent secure storage unit for your motorcycle and equipment. Built from thick, heavy gauge, galvanised (weatherproof) steel panels, featuring a built in heavy-duty metal floor giving unequalled strength and security. A unique vent system is built into the roof and sides, allowing exhaust fumes to escape and keeping condensation to a minimum. The large double door access make Asgard Motorcycle Storage perfect for keeping your motorbike and equipment safe and dry in or out of the riding season. This bike

garage offers excellent motorcycle security with reinforced panels, a 5 point (Locksmith approved) locking system, a pick-and-drill resistant lock, and a full metal base, which can be bolted to the ground. The heavy gauge metal motorcycle unit comes with a heavy-duty access ramp, an electrical mounting plate for adding power to the unit, a helmet and leathers hook rail and a maintenance shelf, giving you the total storage solution. Storing your motorcycle in one of these units may count as garaged for insurance purposes, resulting in a discount with some insurers.

“ It is perfect, being tall enough that I do not have to duck when wheeling the bike in, and wide enough to go straight back in one go - believe you me, a welcome change from fighting to get it into a standard shed!”

- Wilf

## key features

### MOTORCYCLE SECURITY

- Police Approved (Secured by Design)

# motorcycle garage plus

The Police Approved (Secured by Design) Asgard Motorbike Garage Plus is a secure, extra long motorbike storage unit designed to store your motorbike in the safest possible way. This unit is built from heavy gauge, weatherproof steel panels and features a number of innovative security features. The “plus” unit is built in the same tough way as our standard motorbike

garage - it's just bigger! With a tough 5 point locking system, a pick-and-drill resistant lock and welded hinges this is an exceptionally secure garage. Heavy-duty doors, electric socket mounting plate, an integral metal floor and a reinforced roof construction have helped our range of motorbike garages achieve UK Locksmiths “approved” status.

“ I have had the shed for about a month now with all sorts of weather thrown at it. The shed remains dry and free of damp or condensation. The ventilation systems works well.”

- Tony G

## SHELVES

Our easy fit shelf kits, work by screwing into pre-drilled holes (additional screws and instructions are provided in the shelf kit). The shelf packs are a great way of storing dangerous tools or heavy equipment off the floor and free up valuable floor space. They are also great for organising your possessions into easy to find places. The shelf packs are made from the same strong galvanized steel as the metal sheds, ensuring they are weatherproof and long lasting. Our shelf packs are manufactured in the same great choice of colours to match your Asgard shed. The shelves are also supplied with a free 10 year warranty as standard.

**Pack Size:** Available as individually, packs or part of bundles.

**Colours:** Green, grey or ivory finish.

**Size:** Various depending on unit.

## HOOKS

Get the most out of your Asgard with a hook pack. The universal hooks are produced from the same thick galvanized as the Asgard metal sheds, which gives you durable and long lasting storage. They are ideal for hanging heavy objects out of the reach of children or for keeping delicate equipment off the floor. The screw hole is pre-drilled for you, making the installation of the hooks effortless. The hooks are supplied in a choice of colours and sold in packs of 5 or 10. Our hook packs have a 10 year warranty as standard.

**Pack Size:** Packs of 5, 10 or part of bundles.

**Colours:** Green, grey or ivory finish.

**Size:** 135mm (h) x 40mm (d) x 40mm (w)

Internal depth is 35mm. Front lip is 29mm high.

## EYELETS

The eyelets are small and mighty and can be used with a plethora of bike chains and bungee cords. The eyelets are produced from the same heavy-duty, weatherproof steel as the Asgard metal shed collection. Numerous pre-drilled locations, the eyelets can be installed at multiple height levels making them even easier and tidier to use. All the necessary screws for the eyelets are supplied as standard and all the holes are pre-drilled to make sure that installation is a breeze. The eyelets are manufactured in a choice of colours (Green, Grey and Ivory) and are sold in packs of 10 with a 10 year warranty.

**Pack Size:** Packs of 10 or part of bundles.

**Colours:** Green, grey or ivory finish.

**Size:** 60mm (h) x 34mm (w)

### **GROUND ANCHOR**

Ground anchors offer the best in bike and motorcycle security. These ground anchors are tough, hardened metal covers or loops are bolted to the ground for maximum resistance against theft. Ground anchors can be used in all of our bike sheds for even more security. Simply drilling through the integral shed base and fixing the anchor into a 100mm deep base - please read the instructions supplied with your anchor and shed for full details. Many of our ground anchors are sold secure rated (and approved by insurance companies) - suitable for cycles or motorbike users.

**Pack Size:** 1

**Colours:** N/a

**Size:** N/a

# from the pros...

## CYCLING PLUS

### REVIEWING THE ADDITION BIKE SHED

Cycling Plus magazine rated our store 9/10 and wrote, "The best bike storage we've seen by a long way. Storage is always a problem for cyclists. Our bikes are often the second most valuable items we own after the car – sometimes they're worth a lot more – so we tend to bring them into the house. But bikes just aren't designed for leaning up in hallways or stuffing under beds. So if you're fed up tripping over your bike around the house and want to keep it and all the other mucky cleaning, tweaking and riding paraphernalia outside the house where it won't get nicked – one of Asgard's bike stores could be what you're after."

### Ealing Cycling News

### REVIEWING THE ADDITION BIKE SHED

'First impressions are good, the unit really does fit 3 bikes as the photographs show the shelving unit makes a big difference to store the usual stuff. The unit feels rock solid and very secure and the lock should be enough to deter most people. The model up allows you to add your own padlock. The whole thing can be secured further by using ground bolts and there are optional ground anchors too...'. "I prefer this over the Trimetal model, the shelving and hooks are a nice touch and not being top opening means you can store things on top of it.'

David Eales

## MOTOR CYCLE MONTHLY

### REVIEWING THE CENTURION

It's big, expensive and tough - but it can also get bigger with a series of extension packs. Ideal if you're a collector or someone with a large tourer. It's the only bike shed that is UK locksmith approved and - better still - the size and weight means that if you have your bike stored in this overnight, your insurers class it as 'garaged'.

# The Telegraph

## REVIEWING THE ANNEXE

'This is a beast of a bike shed. Comes in green or ivory it can store three bikes (including, and I've tried, bikes with baskets), plus helmets, shoes and all other cycling paraphernalia. The shed is made from thick galvanised steel panels (11 in total), more than 150 screws, brackets and fixing devices and has a heavy-duty integral metal, 5-point locking system; the main lock is a Euro cylinder which is claimed to be pick-and-drill resistant. It needs around 2 square meters of outdoor space and a flat, concrete surface to sit on. Asgard can construct it for you - but if you try it yourself you will need a powerdriver screwdriver and a friend to help.

**road.cc**  
pedal powered

## REVIEWING THE ANNEXE BIKE SHED

'It is as solid as it looks. It's made from 1.2mm thick galvanised steel panels and weighs an impressive 103kg. It's not going anywhere easily, and for further security the metal base can be bolted to the floor. There's a three-point locking system, and the main lock is a Euro cylinder claimed to be pick-and-drill resistant. It arrived flat packed on the back of a lorry. There's quite a few pieces, and the biggest bag of bolts I've ever seen in my life. Fortunately my fear at constructing it proved unfounded, the instructions are easy to follow and it goes up easily in a short space of time.'

# Cycling WEEKLY

## REVIEWING THE ANNEXE BIKE STORAGE

'We were really impressed with the Asgard Annexe we featured in the February 24 issue with its room for up to three bikes. But knowing you lot as well as we do, we also know that most will own more than three bikes (don't worry your secret is safe with us!). Which got us to thinking about what we would do if we wanted to store more. Enter the Asgard storage garage... With a floor area measuring five foot by nine, it'll hold quite a few more than three bikes. In fact it's almost high enough to stand in and can be fitted with a hook rail and shelf so there are several options when it comes to storing bike stuff in it.'

## REVIEWING THE ANNEXE

'Its credentials looked good on paper: 5-point locking system, with reinforced doors, panels and hinges etc.. In addition and it has received LPCB approval. We wanted to test out how strong it was and how much of a beating it would take. As a result we decided to give the Annexe a going over with a hammer, crank and screwdriver (basic tools in a bike thief's armoury) to see what it could withstand. You can check out how we, and the Annexe, got on in our video. Conclusion: It is green, made of steel, heavy-duty and can withstand a proper pounding. We know because we tried to give it one!'

# RiDE

## MOTORCYCLE SPORT & LEISURE

### REVIEWING THE MOTORCYLCE

'Spending £1300 on a metal garage is a serious decision, especially when the same amount of money could buy one hell of a wooden shed. But after a few months using this Asgard garage I've been converted. If security is an issue then this could be the answer. Secure locks give the doors a sturdy feel, and steel sides and roof would defeat all but the most serious of tools. The interior has a plug socket and vents so wet bikes can dry and there's a shelf for your helmet. It's designed for one bike but you could squeeze two bikes in. It only takes up minimal room, but needs a concrete or slab base.'

### REVIEWING THE MOTORCYCLE PLUS

'Asgard is a company based in Bradford, that makes high quality, steel sheds and garages in all kinds of sizes. I've got a couple of mates who have on it its units and so I've seen the quality first hand. The Motorcycle-Plus unit looked perfect for me – big enough (5ft wide x 10ft 9in deep x 6ft 7in tall) for two bikes, counts as a garage for insurance purposes (and is a darn sight more secure than most up-and-over garage doors), but needs no planning permission. At £1199, it's a lot cheaper than building a garage too.'

### REVIEWING THE MOTORCYCLE GARAGE

'The Asgard Motorcycle Garage was put through rigorous testing by the UKLA to analyse the overall security and build quality. From delivery through to self assembly. The UKLA did it all. We are happy to report the Asgard motorcycle garage did pretty well indeed!! The Asgard motorcycle garage has been designed and manufactured here in the UK (Yorkshire) to the highest standards and represents the best in home grown UK engineering and manufacturing. Made from fully galvanised steel, this weatherproof motorcycle garage features a drill and pick resistant lock, a fantastic 5 point locking system and dead bolts!'

**Singletrack**  
mountain bike magazine

#### REVIEWING THE CYCLE STORAGE X 8

“The level of detail included in the build is impressive and it comes with everything you need, though it must be sited on either concrete foundation or solid patio, The lock on the door is a triple point contact system using Yale-style cylinder keys. You can also buy a wireless infra-red alarm from Asgard, and if anyone were to try and break in, the fact is essentially a huge steel drum means they at least won't be able to do it in silence. Overall if you are a typical domestic male you will be in shed heaven with the Asgard. The level of security it offers is second only to a well- padlocked shipping container.”

#### REVIEWING THE ACCESS BIKE STORAGE

“Usability of the unit is top notch. Access is gained through large double front doors as well as the whole roof of the unit lifting up making getting bikes in and out a breeze. The inside itself is particularly spacious, initial concerns that 4 bikes was a little optimistic proved unfounded with 4 bikes fitting with ease along with my strimmer and tool boxes!...” “For those of you used to having your bikes inside your house will of course be concerned about protection from the elements. No concerns here, all access points are well shielded from the elements and the galvanised steel construction should give great protection over time.”
